

RJEŠENJA

matematika.

otroci.org

1. Izračunaj!

$$80 \cdot 5 = 5 \cdot 80$$

$$40 \cdot 8 = 8 \cdot 40$$

$$4 \cdot 40 = 160$$

$$5 \cdot 4 = 200$$

$$4 \cdot 30 = 120$$

$$7 \cdot 4 = 280$$

$$5 \cdot 50 = 250$$

$$9 \cdot 7 = 630$$

$$6 \cdot 60 = 360$$

$$3 \cdot 4 = 120$$

2. Izračunaj!

$$3 \cdot 20 + 5 \cdot 20 = 60 + 100 = 160$$

$$4 \cdot 80 + 6 \cdot 30 = 320 + 180 = 500$$

$$9 \cdot 40 + 5 \cdot 40 = 360 + 200$$

$$5 \cdot 30 + 9 \cdot 20 = 150 + 180 = 330$$

$$9 \cdot 70 + 3 \cdot 50 = 630 + 150 = 780$$

$$4 \cdot 20 + 2 \cdot 40 = 80 + 80 = 160$$

3. Podijeli!

$$948 : 3 = 316$$

4
18

$$735 : 5 = 147$$

23
35

$$308 : 7 = 44$$
